Appendix 1	Prevent Risk Assessment & Action Plan 2023/2024
-------------------	---

1. Introduction

1.1 Section 26 (1) of the Counter Terrorism and Security Act 2015 places a duty on certain bodies to have “due regard to the need to prevent people from being drawn into terrorism”.

1.2 The Government’s Prevent Strategy was published in 2011 and forms part of an overall Counter Terrorism Strategy known as CONTEST. The Contest Strategy has four elements which are detailed below:

- Pursue
- Protect
- Prepare
- Prevent

1.3 Prevent is a key part of the Contest Strategy which aims to stop people from becoming terrorists or supporting terrorism. Early intervention is at the heart of Prevent in diverting people away from being drawn into terrorist activity as Prevent happens before any criminal activity takes place. It is about recognising, supporting and protecting individuals who might be susceptible to radicalisation. The Prevent Strategy was explicitly changed in 2011 to deal with all forms of terrorism and target not only violent extremism but also non-violent extremism which can create an atmosphere conducive to terrorism and can popularise the views which terrorists exploit.

1.4 The government’s 2011 Prevent Strategy objectives are as follows:

- Respond to the ideological challenge of terrorism and the threat we face from those that promote it.
- Prevent people from being drawn into terrorism and ensure that they are given appropriate support.
- Work with sectors and institutions where there are risks of radicalisation that we need to address.

1.5 The United Kingdom currently faces a range of terrorist threats. All terrorist groups that pose a threat to the UK seek to radicalise and recruit people to their cause. A system of threat levels has been created which represents the likelihood of an attack in the near future. The current Government threat level from international terrorism in the UK is ‘substantial’ which means that a terrorist attack is likely.

2. Key Definitions

2.1 For the purposes of this strategy the following definitions have been adopted;

Radicalisation is defined as the process by which people come to support terrorism and extremism and, in some cases, then participate in terrorist groups.

Extremism is vocal or active opposition to British values, including democracy, the rule of law, individual liberty and mutual respect and tolerance of different faiths and beliefs.

Non-violent extremism is extremism, as defined above, which is not accompanied by violence.

Having due regard means that the authorities should place an appropriate amount of weight on the need to prevent people being drawn into terrorism when they consider all the other factors relevant to how they carry out their usual functions.

Interventions these are projects intended to divert people who are being drawn into terrorist activity. Interventions can include mentoring, counselling, theological support, encouraging civic engagement, developing support networks (family and peer structures) or providing mainstream services (education, employment, health, finance or housing).

Terrorism is an action that endangers or causes serious violence to a person/people; causes serious damage to property; or seriously interferes or disrupts an electronic system. The use or threat must be designed to influence the government or to intimidate the public and is made for the purpose of advancing a political, religious or ideological cause.

Any member of staff who identifies such concerns will report these to a Designated Safeguarding Lead via the My Concern referral system where all information will be documented.
